Re: Application for General Permit Authorization TXG 921028,
Proposed Robert David Hogg Dairy, Tom Green County, Texas

Dear Sir/Madam:

During a meeting of the Tom Green County Commissioners Court held August 12, 2008, a resolution was adopted recommending that the TCEQ hold a public meeting on the above referenced general permit application. The resolution followed constituent concerns and questions received by commissioners regarding the proposed permit. Questions and concerns expressed by constituents include the following:

- The effect of the operation on area ground and surface water quality.
- The potential effect on a downstream public water supply.
- The existence of shallow groundwater at the proposed site and the existing soil conditions conducive to groundwater recharge.
- Nuisance conditions to be endured by close residents.

We would therefore respectfully request that the Executive Director of the TCEQ direct the permittee to hold a public meeting in the affected area.

Sincerely,

Michael D. Brown
County Judge
Tom Green County, TX
