

March 18, 2008

To: Vona McKerley
Tom Green County Election Admin.
From: Tyler Software Services

RE: Voter System

In response to a request from your office, Tyler Technologies has agreed to extend our support contract to provide help-desk only support for Voter through June 30, 2008. This extension allows your office to continue using our Voter product with its current functionality through the spring 2008 elections. Included with this letter is an invoice for this additional support.

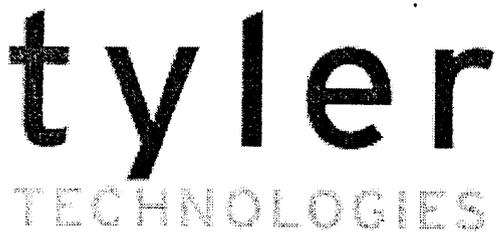

This communication is a written notification of our agreement to extend the existing maintenance contracts. Consistent with our previous communications, we are informing you at this time we do not intend to support the Voter system beyond June 30, 2008.

If you have any questions regarding the support contract, please contact me at 972-713-3770.

Sincerely,

Dave Landgren
Software Services Manager
