SQL Runtime-Restricted Use Software Licensing

The software is "Runtime-Restricted Use" software; as such, it may only be used to run the unified solution solely as part of the unified solution. The software may not be used either (i) to develop and/or (ii) in conjunction with new applications, databases or tables other than those contained in the unified solution. The foregoing provision, however, does not prohibit you from using a tool to run queries or reports from existing tables, and/or from using a development environment or workbench which is part of the unified solution to configure or extend such unified solution.

Shipping charges not included.
