0017-

You're right, I got ahead of myself. Those figures were for a whole year. Here they are adjusted through September below, for a total of 7 months employment:

Salary/Part-time	\$5,772
FICA/Med	\$442
Retirement	\$429
Total	\$6,643

And, if this is classified as a temporary position, then I'm pretty sure there is no retirement charged. You may want to double check that with Terry.

Thanks Nathan for the figures. Are these figures through September or December?

Sheri,

There should be sufficient funds in the County-Wide records management fund (fund 0017) to pay for this part-time employee. The cost breakdown is as follows:

Salary/Part-time (50108)	\$9,894
FICA/Med (60201)	\$757
Retirement (60203)	\$736
Total	\$11,387

The miscellaneous line item (70481) in that fund has \$12,337 available. If the Court authorizes the position, you will need a transfer out of that line item and into the three above. Let me know if you need any additional information.
