

Proposal – 80' Self Support Tower Installation

May 13, 2010

Tom Green County
Don Killam
don.killam@co.tom-green.tx.us

The following is the proposal to provide and install an 80' RDT Self Support Tower along with foundation construction, tower erection, ice bridge, port of entry, and other site work as needed. This Western Towers Model RDT80 Self Support Tower is all solid steel construction and will meet or exceed TIA/EIA-222-G specifications. The finish on this tower will be that of hot dipped galvanized zinc performed by Aztec Galvanizing.

Our tower proposal includes:
80' Tower and Hardware
Foundation Construction
Climbing Ladder
Safety Climb System
Lightning Protection
Grounding Ring and Electrodes
Engineering
Tower Erection
Ice Bridge

The cost for the items listed above is: \$61,750.00 less the 18% DIR discount of (\$11,115.00) for a total cost of: \$50,635.00. This price is based on normal soil and access and does not include any permits, fees, taxes, etc.

Our DIR Contract is: "Emergency Preparedness Hardware and Related Services" Contract Number: DIR-SDD-1022.

Not included is a waveguide bridge for securing the coax up the tower. The cost for this is \$1,480.00. Antenna mounts will cost an additional \$350.00 each if needed. Dish mounts are \$500.00 each. Mounting of the antennas and lines will be an additional charge based on the number of lines and antennas. DIR discounts available on items stated above.

We appreciate your inquiry for pricing. We look forward to providing excellent products and services to meet your project needs.

Sincerely,

James Bird
