Dear Mr. Easingwood

As required by the Texas Commission on Environmental Quality (TCEQ) under the Texas Pollution Discharge Elimination System General Permit TXR 150000, the Texas Department of Transportation is required to submit a completed copy of the NOT to the operator of any municipal separate storm sewer system receiving discharge when the project is complete. The attached NOT is for US 67, which is in the Tom Green County MS4 area.

If you have any questions, please don't hesitate to contact me at (325) 947-9377.

Sincerely,

Ricky Moore
District Construction Superintendent

Dear Applicant:

We have received your Notice of Termination of coverage under the general permit for discharge of stormwater for your facility at the location listed above. We have updated our records to show your termination of coverage request to be effective on August 6, 2010

By signing this Notice of Termination, you are no longer authorized to discharge storm water associated with the activity under the general permit. Any discharge of pollutants in storm water associated with the activity to surface water in the state is unlawful under the Clean Water Act where the discharge is not authorized by a Texas Pollutant Discharge Elimination System (TPDES) permit. In addition, the submittal of this Notice of Termination does not release an operator from liability for any violations of this permit or the Clean Water Act.

As stated in the TPDES storm water general permit the Storm Water Pollution Prevention Plan and all data used to complete the NOI for coverage under the general permit, must be maintained and made readily available for review for a minimum period of three years following the termination date. Failure to comply with this or any permit condition is a violation of the permit and the statutes under which it was issued, and is grounds for enforcement action.

If you have any questions related to processing you may contact the Storm Water Processing Center by email at SWPERMIT@tceq.state.tx.us or by telephone at (512) 239-3700. For technical issues, you may contact the storm water technical staff by email at SWGPA@tceq.state.tx.us or by telephone at (512) 239-4671. Also, you may obtain information on the storm water web site at www.tceq.state.tx.us.

Sincerely
