Re: Millersview-Doole Water Supply Corporation (WSC) – Proposed Water Lines in County Right-of-Way

Dear Judge and County Commissioners,

On behalf of Millersview-Doole WSC and Jacob & Martin, Ltd., we would like to thank you for taking time to review our proposed water line project. The WSC is proposing to extend its water distribution services in rural areas of Tom Green County east of San Angelo. The water lines are being proposed in the County's Right-of-Way; therefore, the WSC is requesting the approval of the Tom Green County Commissioners Court. Below is a list describing the locations of the proposed water lines:

- 1,561 linear feet of 4-inch PVC water line along Petite Lane
- 825 linear feet of 3-inch PVC water line along **UNNAMED ROAD** located approximately 700 feet east of the intersection at FM 765 and Hawk Avenue
- 809 linear feet of 3-inch PVC water line along Lena Road
- 1,115 linear feet of 3-inch PVC water line along **UNNAMED ROAD** located approximately 2,000 feet east of the City of Wall
- 28,925 linear feet of 3-inch PVC water line along County Road 1445
- 3,340 linear feet of 3-inch PVC water line along **UNNAMED ROAD** located approximately 2,600 feet east of the intersection at County Road 2334 and FM 388
- 4,025 linear feet of 3-inch PVC water line along Blackwood Road/Rockwood Road
- 7,000 linear feet of 3-inch PVC water line along Riverwood Road
- 6,952 linear feet of 3-inch PVC water line along Abernathy Road/ Cedarwood Road
- 2,901 linear feet of 2-inch PVC water line along Jarratt Road

I have enclosed 5 sets of the plans which also show the locations of the proposed water lines that shall be installed parallel to the property lines and approximately 7.5 feet from the property lines. All water line crossings of paved county roads shall be bored per the detail shown on Sheet 33 of the plans.

Granting the approval of the water lines in the County's Right-of-Way would insure the rural area residents of Tom Green County with a reliable water supply. Please feel free to call me if you have any questions. We appreciate your assistance.

Sincerely,
JACOB & MARTIN, LTD.

Eddie Aguilar, E.I.T.
