Re: Central Texas Telephone Cooperative, Inc.  
Request to Place Equipment in County Right of Way  
Eola Exchange, Tom Green County, Texas

Dear Sir;

Central Texas Telephone is requesting approval from the Tom Green County Commissioners Court to place a DLC (digital line connector) unit and electric utility pole in county right of way. The unit will be located approximately four (4) miles south of US Hwy 87, on the east side of Fort McKavett Road near the entrance to Denis Ranch. The unit and pole will be placed as close to the fence as possible. To better visualize the site, I enclose the following:

1. General location plat.
2. Plat showing location of the unit.
3. Two photographs showing a DLC unit as it will appear after installation.

I am sure you are aware Central Texas Telephone has previously placed units of this type in County right of way without impeding County operations or normal road traffic.

If additional information is desired, I may be reached at either of the numbers on the enclosed card.

The County's cooperation regarding this matter would be greatly appreciated.

Best regards,

R. W. Usrey
