RE: Submittal for proposed two inch water line going to 5555 Switzer Ln. belonging to Frank Evans.

HCI has contracted to bury a two inch water line starting on the southwest corner of Switzer Ln and North Arrington Rd. going west along the south side of Switzer Ln in a private easement belonging to Millersview-Doole Water for six hundred ninety six feet. Then HCI will bore under Switzer Ln. at this point for a distance of one hundred feet and place a four inch PVC casing to sleeve two inch service line. Top of four inch will be thirty six inches of cover under lowest point of road.

HCI will warranty work for the period of one year against leakage.

Millersview-Doole Water will assume ownership of line after final testing is complete and will be liable to line locates.

See attachment A.

Thank You,

A handwritten signature in black ink, appearing to read "S.D. Boyd", is positioned above the printed name.
