

Adoption of Voting System

Section 123.001 of the Code provides that a voting system must be adopted for use in any one or more elections by resolution, order or other official action. The adoption of a voting system may be modified or rescinded at any time. Additionally, the authority adopting the system should indicate in their official adoption action whether they are adopting the system for use in early voting only, regular voting on election day or both. The general custodian of election records is required to make any user or operator manuals or instructions relating to the system available for public inspection. For counties, it is the Commissioners Court that is responsible for handling the adoption action.

An adoption action should include the following information:

- 1. Name of Vendor*
- 2. Name of Voting System*
- 3. Type of Equipment*
- 4. What part of the election process the equipment will be used for (early voting in person/by mail, election day, provisional ballots),*
- 5. What elections it will be used for (all elections or just certain elections)*

On January 29, 2019 the Commissioners Court of Tom Green County adopts:

Hart Intercivic's Verity product including Verity Touch with Controller, Verity Scan, and all necessary equipment required to operate these products.

The equipment will be used for all phases of an election: early voting in person/by mail, election day, and provisional in any elections that are held in Tom Green County for all county elections and/or elections held by other contracting entities.

Stephen Floyd, County Judge

Ralph Hoelscher, County Commissioner, Pct. 1

Sammy Farmer, County Commissioner, Pct. 2

Rick Bacon, County Commissioner, Pct. 3

Bill Ford, County Commissioner, Pct. 4
